ARTICLES

Carlos B. Miguez, Charles W. Greer, and Jordan M. Ingram Purification and properties of chlorocatechol 1,2-dioxygenase from *Alcaligenes denitrificans* BRI 6011 1

Michael J. Bidochka and George G. Khachatourians Regulation of extracellular *N*-acetyl-D-glucosaminidase production in the entomopathogenic fungus *Beauveria bassiana* 6

Roberta R. Fulthorpe, Steven N. Liss, and D. Grant Allen Characterization of bacteria isolated from a bleached kraft pulp mill wastewater treatment system 13

Tom A. Pfeifer, Dwayne D. Hegedus, and George G. Khachatourians The mitochondrial genome of the entomopathogenic fungus *Beauveria bassiana*: analysis of the ribosomal RNA region 25

Patrick Benoist, Angeles Müller, and Hoang Gia Diem Coordinate increase in activity of proteinase subunits of the 1300-kDa megaproteinase of *Frankia* strain BR: role of carbon source depletion and extracellular metabolites 32

Michael J. Bidochka, Kit I. Tong, and George G. Khachatourians Partial purification and characterization of two extracellular *N*-acetyl-D-glucosaminidases produced by the entomopathogenic fungus *Beauveria bassiana* 40

D. I. Kurtböke, N.E. Murphy, and K. Sivasithamparam Use of bacteriophage for the selective isolation of thermophilic actinomycetes from composted eucalyptus bark 46

Anouar Alasri, Michèle Valverde, Christine Roques, Georges Michel, Corinne Cabassud, and Phillipe Aptel Sporocidal properties of peracetic acid and hydrogen peroxide, alone and in combination, in comparison with chlorine and formaldehyde for ultrafiltration membrane disinfection 52

Alan G. Williams and Susan E. Withers Changes in the rumen microbial population and its activities during the refaunation period after the reintroduction of ciliate protozoa into the rumen of defaunated sheep 61

Wade H. Bingle, Harry D. Kurtz Jr., and John Smit An "all-purpose" cellulase reporter for gene fusion studies and application to the paracrystalline surface (S)-layer protein of *Caulobacter crescentus* 70

Tami Bar and Yaacov Okon Tryptophan conversion to indole-3-acetic acid via indole-3-acetamide in *Azospirillum brasilense* Sp7 81

Banwari Lal and Sunil Khanna Renodulation and nitrogen fixing potential of *Acacia nilotica* inoculated with *Rhizobium* isolates 87

James Ng and R. Campbell Wyndham IS1071-mediated recombinational equilibrium in *Alcaligenes* sp. BR60 carrying the 3-chlorobenzoate catabolic transposon Tn5271 92

NOTES

K.-J. Cheng, T.A. McAllister, Svein D. Mathiesen, Arnoldus S. Blix, Colin G. Orpin, and J.W. Costerton Seasonal changes in the adherent microflora of the rumen in high-arctic Svalbard reindeer 101

Marta Puig, Carme Fusté, and Miquel Viñas Outer membrane proteins from *Serratia marcescens* 108

Hashem Salloukh, Carol Lavery, James R. Smiley, and William E. Rawls Construction and preliminary characterization of a non-defective herpes simplex virus recombinant bearing the genome of human papillomavirus type 16 111

J.A. Rollins, M. Ehrenshaft, and R.G. Upchurch Effects of light- and altered-cercosporin phenotypes on gene expression in *Cercospora kikuchii* 118

Weiguo Cao and Don L. Crawford Purification and some properties of β-glucosidase from the ectomycorrhizal fungus *Pisolithus tinctorius* strain SMF 125

Catherine W. White and Eric S. Jacobson Mannosyl transfer in *Cryptococcus neoformans* 129

J.M. Tamblyn Lee, Y. Hu, H. Zhu, K.J. Cheng, P.J. Krell, and C.W. Forsberg Cloning of a xylanase gene from the ruminal fungus *Neocallimastix patriciarum* 27 and its expression in *Escherichia coli* 134

FEBRUARY / FÉVRIER

REVIEWS / SYNTHÈSES

Ferdynand J. Kos Antigen-specific recognition by class I major histocompatibility complex restricted T cells and activation of $CD8^+$ memory cytotoxic T cells 141

Donald W. Warburton A review of the microbiological quality of bottled water sold in Canada. Part 2. The need for more stringent standards and regulations 158
